About Sangam Group

Born of humble beginnings in the year 1985, the group today is a business giant with over 7,000 employees and aims to achieve a billion dollar turnover by 2015.

The Group has more than 200,000 spindles and 4000 rotors for producing PV dyed yarn, cotton and OE yarn with an enviable reputation for quality, which is underlined by its ISO 9001:2008 certification. The Group is the largest producer of PV dyed yarn in Asia at single location. The Group is a forerunner in manufacturing ready to stitch fabric with the annual capacity to produce 30 million meters of fabric and 40 million meters of denim.

Charting a steady growth path, Sangam Group has diversified into infrastructure, power and recently the steel industry. The Group has introduced the world's largest medium frequency induction melting furnace at its steel plant which is one of the largest steel manufacturing units with the capacity to produce 0.5 million ton Steel per annum.

Apart from the activities which Sangam has carried out to be where it currently is, the company firmly believes that its contribution to society plays an important role in its growth too. The group is supporting charitable trust's which operates a 100 bed hospital for the needy people, An University having world class infrastructure, and an IB world School in Bhilwara, Rajasthan.
